

# *Company profile*

*Officine Meccaniche Vezzani srl*

## Since 1955

OMV was established in 1955 under the name "Anfor" di Vezzani & Benatti. From its inception, the company was dedicated to the production and sale of steel couplings, clamps, and livestock equipment.

In 1966 the company assumed its current name and trademark, and in the years to follow consolidated its ongoing development thanks to an increasingly wide-reaching expansion on the domestic market as well as internationally.

Today OMV exports to more than 50 countries worldwide and participates in important trade shows, both local and international.

OMV represents a solid point of reference for satisfying every need in agriculture, livestock breeding, and industry, offering a wide range of products and services. We respond to the growing demand for competence and professionalism with three fundamental qualifications:

- experience
- reliability
- collaboration.

## Mission

*Perfect design and engineering can only result from solid know-how acquired over many years of experience “in the field”.*

*OMV's design and engineering staff is composed of expert professionals with an in-depth understanding of the problems of the livestock and irrigation sectors. This means that we are able to create ideal habitats for all types of livestock farms, along with quick release couplings and accessories for irrigation and dewatering.*

*With the operational capacities of OMV, each installation grows according to schedule, more rapidly and problem-free, meaning much less stress for the customer. In addition to structure design, supply, and installation, OMV offers a series of services ranging from assistance in selection to negotiation of support supplies, works supervision, and turn-key delivery of the entire installation.*

*Member of the Zeta Group Consortium of Producers of Equipment and Systems for Livestock Breeding*

*Member of API Small and Medium Industry Association Reggio Emilia*

*Sales figures of the last several years for the three divisions: livestock, irrigation, accessories. In EURO*

## *Engineering and know-how*

*OMV is an industrial firm with an international reach, with more than 30 employees and 50 years of experience. An entrepreneurial spirit dedicated to development and innovation.*

*The organization of the various company departments reflects this attribute: from the technical and development office to the production department, from assembly to warehousing, every stage of the process is prepared to respond efficiently to three main requirements:*

- flexibility in dispatching requests*
- rapid execution*
- control of the final product.*

*Vezzani Carlo, Vezzani Elisabetta, Cavazzoni Walter*

## High quality products

The OMV production programme comprises a wide range of products, subdivided into the industrial and agricultural sectors:

### Systems and accessories for modern livestock production

Prefabricated steel frameworks for stables, hay barns, and sheds; separators for stalls, headlocks, cleaning systems, manure handling and treatment systems, accessory equipment, cages and pens for calves, bale feeders, and tie-stall housing systems.

### Quick release couplings and accessories for irrigation and dewatering

Quick release couplings, Footvalves, Sprinkler tripods, Discharge pipes, Wellpoint, Pipes, Accessories, etc.

### Clamps and accessories

A vast range for creating metal structures in tubing, greenhouses and construction for do-it-yourself projects, with quick assembly and dismantling.

## Customer service

Tough competition in every market, domestic and international, has trained us to collaborate with resellers and distributors with the maximum efficiency.

Our customers are never left alone and can always count on an expert technician to provide a solution to any problem.
